Amelia

No one knows what happened to Amelia
She went away so far no one could find her
She left without a trace
Where she is no one could say
Just how did her story end
Amelia

Miles in the sky
Like a bird she's so high
Miles in the sky
You can hear her if you try
She's up and away up and away
Up and away up and away

Heading out to California to spread her wings Amelia
With a Lockheed Electra setting a record Amelia
She went to another place
Nobody ever saw her face
Where is her final resting place
Amelia

Miles in the sky
Like a bird she's so high
Miles in the sky
No one heard her say goodbye
She's up and away up and away
Up and away up and away

Kissed her man goodbye then took to the skies Amelia
She got off the radar fuel going so far
Amelia
Somehow she got far away
Some say she's a castaway
All I know she left this place
Amelia

Miles in the sky
Like a bird she's so high
Miles in the sky
You can hear her if you try

No one heard her say goodbye
No one ever said goodbye
Like a bird out of sight
If you listen you can hear her cry

Over the Edge

For so long now I always played it safe
It seems something stopped me from showing my real strength
Oh I never thought I was good enough
It was given to me when I was young What could've been if I weren't so afraid

Well I wish I could've gone on with the flow
As I saw all my chances come and go

Closer to the edge
I think I should step back
Something could happen
I think if I don't watch my step
I might get closer might go over
Over the edge over the edge
Over the edge
Well some of us don't want to wander too far from home
We're content to let the others run the show
Oh but buried deep inside or soul
A dusty dream weights to unfold
What would it take to let it all just go

Closer to the edge
I think I should step back
Something could happen
I think if I don't watch my step
I might get closer might go over
Over the edge

Closer to the edge
This time I won't step back
Something will happen
This time now I'll get closer closer
Closer to the edge
This time now I won't step back
Something will happen
This time now I won't watch my step
And I'll get closer I'll go over yeah over

Carousel

Do you remember that day
We pledged eternity
We carved our names in the tree
You and me

And then you went away
Where did you go
You left me here
On my own

Round and round and round we go
Where it stops nobody seems to know
Round and round and round we go
Like a carousel a magic show

So many years have gone bye
And I'm remembering
We carved our names in the tree
Forever you and me oh yeah

I can't forget that day
You left so suddenly
I wait for you to come to me
Forever eternally

Round and round and round we go
Where it stops nobody seems to know
Round and round and round we go
Like a carousel a magic show

24

A kiss and a promise
Exchanging vows that I held close
Our house our children living lives
The years quickly passing
Memories everlasting
Milestones celebrations
The only ring is suffering

Photographs of a happy family
Hanging on the wall
I wanna tear them down
Burn them all

24 What was it for
24 Oh you started this war
24 Like I told you before
The only ring is suffering
Go ahead take everything

Gone a lot grew suspicious
Acting strange and indifferent
So I dug a little bit deeper uncovering
The grass is always greener
Young flesh so much sweeter
Only you is all that matters
The only ring is suffering

Vacations family gatherings
Everything seemed fine
What man would walk away
Leave it all behind

24 What was it for
24 Oh you started this war
24 Like I told you before
The only ring is suffering
Go ahead take everything

When someone's done you wrong
They got to make themselves right
They start putting you down
And wanna fight
You left such a mess
I don't know where to start
Everyone is so upset
You broke my heart

Photographs of a happy family
Hanging on the wall
I wanna tear them down
I wanna burn them all
24 what took so long
Why did you let this go on
You knew one day you'd be gone
With this ring came suffering

Photographs of a happy family
Hanging on the wall
I wanna tear them down
And burn them all

24 What was it for
24 Couldn't take anymore
24 oh you started this war
The only ring is suffering
Go ahead take everything
24 What was it for
24 Oh you started this war
24 Like I told you before
The only ring is suffering
I'm busy recovering
24 you left nothing
Go ahead take everything

Can you hear me
Can you hear me
Can you hear me

Everybody's High

Every time I feel this way
I want outside my head
I hope a pill a drink or two
Will put my thoughts to bed
I should've would've could've now
But I wasted too much time
But maybe one more toke or two
Will ease my troubled mind

But I'm thirsty, I ain't feeling fine
I always seem to mess it up
With one small glass of wine

Intoxicated, inebriated, well sedated
Everybody's High
Intoxicated, inebriated, well sedated
Everybody's High.....

I haven't been myself at all
Everything is wrong
I blame the world and everyone
But I keep turning on
I'm feeling really itchy now
I'm really not ok.
With a quick fix and a line or two
Will put this bitch away

But I'm thirsty and I'm drinking Jack
But there's got to be a better way
To get this monkey off my back

Intoxicated, inebriated, well sedated
Everybody's High
Degenerated, obliterated, medicated
You're messing with your mind
Everybody's High.....
Intoxicated, inebriated, well sedated
Everybody's High
Degenerated, obliterated, medicated
Everybody's High.....
Everybody's High

Shake it eat it shoot it up snort it
Mix it shake it anyway you take it
Oxy Ritalin Reefer Vicodin
Xanax Prozac Crystal Heroin

Intoxicated, inebriated, well sedated
Everybody's High
Degenerated, obliterated, medicated
You're messing with your mind
Intoxicated, inebriated, medicated
Everybody's High

(Rap during last chorus)
Medicated, well sedated, wasted
Well sedated, lubricated, medicated
Inebriated, well sedated, elevated
Everybody's terminated
Everybody's High

Butterfly

I watched them cover you in blankets pumps and wires
They plugged every hole hoping you wouldn't expire
No matter what they did you never opened your eyes
Nobody knew that you were getting ready for flight

So fly so far away from here
You're out of sight not out of mind Butterfly
I cried when I had to say goodbye
With wings unfurled will you emerge
Butterfly

I know you're somewhere out there just beyond my reach
You've turned into something else beautiful energy

Oh fly so far away from me
You're out of touch not out of mind Butterfly
I cried when I had to let you go
You're free to fly beyond the sky
Goodbye
Butterfly Butterfly Butterfly
Butterfly Butterfly Butterfly
Butterfly Butterfly Butterfly

This Moment is all we Have

When I think about the past too much
You know it always brings me down
You know I can't help myself
I've seen troubles all around

Oh we long for days gone bye
When things were better in our lives
We can't wait for time to come
Cos we're always on the run

This moment is all we have
The past is gone we can't go on
And on and on and on and on and on
Oh well well oh my my
Here and now I'll tell you why
Living in this moment is all we have

If I foresee shit happening
My life will surely come undone
Well I'll live in stress and fear and worry in a hurry on the run

Look around you touch and feel
Notice everything is real
Don't let the pain of yesterday
Take your happiness away

This moment is all we have
The past is on we can't go on
And on and on and on and on and on
Oh well well oh my my
Here and now I'll tell you why
Living in this moment is all we have

This moment is all we have
The past is gone we can't go on
And on and on and on and on and on
Oh well well oh my my
Here and now I'll tell you why
Living in this moment is all we have
Living in this moment is all we have
Living in this moment is all we have
Living in this moment is all we have
Living in this moment
Right here in this moment
Is all we have

The Only way Out is Through

It's like waking up one day and noticed you've walked deep into a dense forest
Tall trees are all around so high that you just can't see the light of the sun
The leaves are so full it's hard to tell Day from night but something fell you're full of fright
Life is sometimes dangerous you find yourself in the thick of it
With nowhere to run

Well they can't hear you scream
Cos you lost everything
What in the world can you do

The only way out is through
The only way out is through
You can't fly away
Why would you stay
The only way out is through
Is through

What's lurking behind that rock scary things come out in shock
this is your life
When you're off the beaten path there's only one way to get back
With your own 2 feet

Will you can't hear your scream
And you lost everything
What in the world can you do

The only way out is through
The only way out is through
You can't fly away
Why would you stay
The only way out is through

The only way out is through
The only way out is through
You can't fly away
Why would you stay
Get in the groove
Cos it's time to move
When you've got nothing
You've got nothing to lose
The only way out is through
Is through

Sweet Nothings

Get out of my way
Get out of my mind
Don't you know what you're doing
Is causing me pain

Get out of my life
Get out of my face
Can't take it no more
Don't want you to stay

Get out of my world
I'm going insane
Don't want you no more
It's over today

Get out of my bed
Get out of my car
I know what you're up to
You know it ain't right

Get out of my heart
Go on go
I'm out of the darkness
And I see the light

Sweet nothings
Whispers in ears
Sweet nothings
All through the years

Get out of my heart
Get out of my soul
Now I'm the one who's taking control

You're out of your mind dear
If you come any closer
I'll hurt you I fear

Can't take it no more
I'm down on my knees
Take it all with you
I'm begging you please

Get out of my head
Get out of my mind
Don't you know what you're doing
Is causing me pain

(Chorus)

Empty words are all you say
Wasted on me anyway

Get out of my head sweet nothings
Get out of my way I can't let you stay

Sweet nothings
Whispers in ears
Sweet nothings
All through the years
Get out of my world
Get out of my house
Get out of my bed
Get out of my heart
Get out of my soul
No I'm the one who's taking control
You ain't looking so good baby
Sweet nothings

Happy

The world's not here to make you happy.
Look around to see things are what they are
Good or bad, it's in your head
The world's not here to make you happy

You can find happiness
In any simple thing
You can find joy
It's a choice you have to make

The world's not here to make you happy
Lovers and friends can make you smile for awhile
Whatever it is, it is what it is
The world's not here to make you happy

You can find happiness
In any simple thing
You can find joy
It's a choice you have to make

In just a blink of an eye
We're here for a short awhile
Why should we be so sad
We can decide to be happy

You can find happiness
In any simple thing
You can find joy
It's a choice you have to make

Dance of Life

Whatever you want
Whatever you need
Whatever you're here for
Get it from me
Sometimes you win
Sometimes you lose
We all get a turn
On this dance of Life

We spin around we trip the light
We wonder how to get it right
When to wait when to fight
Some say it's this some say it's that
They try to to tell us it's their way that's best

Whatever you want
Whatever you need
Whatever you're here for
Get it from me
Sometimes you win
Sometimes you lose
We all get a turn
In this dance of of Life, of Life

We can follow we can lead
Take it slow or full on speed
We go, we go
Dress it up or keep it real
Move around or find a chair
Sit it out

(Chorus)

Once you're gone life goes on and on This is your song
Let's get it right this dance of Life

Whatever you want
Whatever you need
Whatever you're here for
Get it from me
Sometimes you win
Sometimes you lose
We all take a turn
On this dance of Life

No Turning Back

You're in deep in a river of excuses grab something
Hold a rock or that tree trunk to stop drowning
Looking in my eyes you denied all I knew
Lying and deceiving second nature to you

No turning back now
You can't come back now
No turning back from what used to be
All your deceptions changing directions
No turning back oh no turning back

No you're up on a mountain I know where you're going to go down from here
How can you feel good when you wrecked all you could you're time is near
Learning all the truth about you set me free
Now I realize you were not meant for me

No turning back now
You can't come back now
No turning back from what used to be
All your deceptions changing directions
No turning back oh no turning back

Dust his settled I can let myself breathe once again
Now I know you never ever really could be my friend
Learning all the truth about you set me free
Now I know there's something wrong with you not me

No turning back now
You can't come back now
No turning back from what used to be
All your deceptions changing directions
No turning back oh no turning back

Pam's Song

Floating on a cloud
Are you looking at me now
Wishing you could be here
Suddenly you left me
In the middle of a life that ended too soon

We had more to say
We had things to do
I had more to say to you
I wanna feel you right here by my side
You went away it was me who died

Born in harmony
Now I'm a single melody
I listen for your voice
The most precious thing that I own
Is the message that you left on my phone

We had more to say
We had things to do
Never had the chance to say I love you
Are you standing right here by my side
If I could see your face I'd feel more alive
Because you're gone does it mean

Goodbye goodbye
I want to feel you right now
Can you touch me right here
Give me a sign

We had more to say
And we had things to do
I had more to say to you
I want to feel you right here by my side
You've gone away I'm still alive
Now you're gone I don't want to say
Goodbye
I don't wanna say I don't wanna say
Don't make me say.....please
Goodbye
